COUNCIL APPROVAL DATE: June 21, 2012

TOPIC: Review of 2009 MUTCD Standards

AFFECTED PORTIONS OF MUTCD: Chapter 2K, Tourist Oriented Directional Signs

DISCUSSION/QUESTION:

Following the publication of the Final Rule that issued the 2009 MUTCD, FHWA asked that the NCUTCD, through its technical committees, review the text with respect to the Standards, Guidance, and Options included therein. The GMI Signs Technical Committee reviewed each of the applicable sections, resulting in numerous recommendations submitted as sponsor ballots.

The ballot item described herein recommends changing Section 2K.01 paragraph 2 from Standard to Guidance to address a concern that agencies may not have the resources to accurately determine the source of income or visitors for a particular business or attraction. It also reflects the fact that there may be locations of interest to tourists, or road users not residing in the area, that do not meet this requirement. This could include churches, restaurants, and the like.

RECOMMENDATION: The GMI Signs Technical Committee recommends the following.

Section 2K.01 Purpose and Application
Tourist-oriented directional signs are guide signs with one or more sign panels that display the business identification of and directional information for eligible business, service, and activity facilities.

**Standard Guidance:**

A facility shall **should** be eligible for tourist-oriented directional signs only if it derives its major portion of income or visitors during the normal business season from road users not residing in the area of the facility.

**June 20, 2012**

GMI Signs Technical Committee Vote: For: 17
Against: 1
Abstentions: 0

GMI Consensus is that the eligibility for tourist-oriented directional signs should be left to the local agencies and not established as a standard in the MUTCD.
